

Sherute, LLC | Terra Holdings

Project date:

Monday, December 1, 2008

Sherute, LLC corporate office space. Norman's Glass is a preferred vendor for Sherute Multi-Disciplined Service Company. Our relationship was grounded and began with being their glass and glazing contractor for their corporate offices. Curtain Wall, Storefront, Aluminum Doors and Insulated high-performance glass were all used to complete the astounding building facade you see in these photos. We also supplied all the punched windows around the perimeter of the building.

2 separate Curtain Wall sections with one wrapping around the corner of the building which gave our Engineers a great challenge to complete. The end result is a remarkable, beautiful building located in the heart of Hamilton Township and a pride achievement of Norman's Glass Company.
