

NRG Energy

Project date:

Wednesday, December 10, 2014

NRG Energy Corporate offices located in Carnegie Center in Princeton, NJ. All glass walls were incorporated with All-Glass doors and Old Castle Building Envelope system. Including top-of-the line hardware and security. Full height glass to 12' ceilings, patch fittings and sidelight patch fittings, Dorma BTS80 floor closers, Rockwood back to back pull handles. Fins at the top of the system provided some support, distraction markings and logo markings around the office space were installed onto the glass as well.
